VIII. Safa Park, Ankara, Turkiye. October 17, 2024.
Angel of Peace by Guatemalan sculptor Pepo Toledo, was meticulously reproduced by Turkish artist Dođan Karakılıc.

Mansur Yavaş, Mayor of Ankara, with artist Pepo Toledo

Angel of Peace is made of mirror-polished steel to interact with the environment.

Plate thickness 9 mm allows sculpture to move with the wind.

Pepo Toledo's Refraction Message

- "Behavior is a mirror in which each person shows their image." Goethe.
 - The most useful mirror you can find is inside you. It is your conscience, the mirror of God reflecting yourself.
 - Peace can only be forged by sincere people.
- 

Pepo Toledo's Peace Message

- Peace is something we're not often grateful for, until we lose it, like many other things God gives us.
 - Absence of violence is not real peace. For countries that emerged from war, there's no peace without forgiveness.
- 

Message

- Conflicts must be solved reconstructing not destroying, going forward not backwards, united and not in dissension.
- An old saying says that forgiveness can't change the past but it can change the future.
- Isaac Newton said "Men build too many walls and not enough bridges".

Message

- It is inside us that war and peace are born.
 - It is there where we need to build the foundations of peace so we can raise our homes.
 - For a home that lives in harmony is the biggest treasure of all.
- 

Message

- Starting there we can create world peace.
 - Peace is no utopia, it is an achievable dream.
- 

Message

- Only with a positive attitude we can construct a lifetime structure based on peace, truth, love, equality, justice, freedom, and sympathy.
 - Societies that do so develop a level of tolerance and union that makes them able to go through natural, economic, and every other kind of disaster.
- 

Message

- When peace flourishes so does human potential.
 - Herodotus used to say “No one is so foolish as to prefer war to peace, in which, instead of sons burying their fathers, fathers bury their sons.”
-
